Managing Your Manufacturing Business Just Got Easier

Leading-edge solutions. World-class service.

Today's consumers expect products to be up to code, delivered fast, and exactly what they ordered. Meeting demands can be challenging but manufacturing success depends on it. How can you ingrain speed, accuracy, and profitability into every area of your operation? By integrating services and solutions that keep customers satisfied and productivity at peak levels. Only OCR Canada helps manufacturers simplify sorting, stocking, picking, and shipping, all while increasing profit margins.

Amplify your manufacturing plant

- Simplified asset tracking and tracing
- Streamlined inventory management
- Universal mobile device management and support
- Robotics technology
- High-speed work in process
- Just-in-time operational workflow

Our alliances with tech's biggest names help streamline every area of your operation—ensuring optimized asset management, less downtime, and instant access to analytics that help you make proactive business decisions.

Turn obstacles into opportunities

Modernize your infrastructure with tech tailormade for this moment and beyond

1. **Receiving/Putaway**
2. **Picking**
3. **Work-in-Process**
4. **Inventory Managment/ Part Replenishment**
5. **Product Labeling/Signage**
6. **Device Management**
7. **Load Planning Solution**
8. **Shipment Verification**
9. **Traceability**

Technology

- Mobile Computers/Tablets
- Printers
- Scanners
- RFID
- Lockers
- Wearable/Voice Tech
- Forklift-Mounted Computers
- Head-Mounted Display
- Robotics
- 3D Technology

OCR Canada: A Fully Managed Turnkey Solution

Futureproof your operation with solutions that exceed every expectation

Experience OCR Canada

- **Expedite the put away process**—keep an eye on asset levels and their locations in real time with reliable mobile computers

- **Maintain stock levels**—slash surplus with efficient inventory management and replenishment

- **Implement convenient, custom labeling**—stay organized with high-quality, durable labels for shelves, shipping, parts racks, and more

- **Meet evolving regulations**—keep operations and employees safe with solutions that log employee actions, devices, and locations

- **Boost asset visibility**—use cutting-edge RFID technology to track assets, improve loss prevention and boost ROI

- **Pack like a pro**—leverage software that evaluates load dimensions to maximize space and ensure efficiency with each truckload

- **Avoid mis-shipments**—verify products leave the plant on the right truck with innovative dock door RFID portals

- **Track assets within the facility**—from works in process to devices, trace every item, and remain compliant in the process

Take a modern approach to manufacturing

Speed up workflows by augmenting staff. Keep an eye on quality control, high-value assets, and even works in process. And do it all with ease, for years to come. Partnering with OCR Canada gives you access to not only a global provider, but a portfolio of integrable and customizable services and solutions meant to support you from concept to completion, and well after.

Solution Design/Implementation
Implement comprehensive project management, mobile technology support and onsite setup, installation, and replacement of technology

Device Support
Leverage secure and detailed staging, kitting and carrier activation, device management services, plus Overnight Spare Pool, Repair and Manufacturer RMA services to keep critical business running nonstop

Device-as-a-Service
Enable a predictable OPEX model by bundling innovative devices with a variety of services and software

Asset Management
Access our industry-leading online portal to easily view, report and even purchase the right equipment for your business

VC8300

Rugged, reliable device management

Leverage Zebra's durable, cost-effective VC8300 vehicle-mounted computer to easily control devices. Even supports "green screen" apps of today and Android apps of tomorrow with the keyboard and touchscreen enabled VC8300.

Software Solutions
Utilize onsite consulting and integration support, including custom software development, to ensure best practices are implemented at all times

Wireless Networking
Securely run all devices on one, unified network—enjoy Wi-Fi site survey, installation and, maintenance services

Level up from the ground up

Use robotics to boost conveyor belt productivity and RFID technology to optimize traceability. Even simplify reordering and replenishment. OCR Canada suite of fully managed, turnkey solutions help grow profit margins and make manufacturing easier. Transform your enterprise with services and solutions designed to optimize manufacturing at every turn, all on one secure, fully integrated network.
